Cutleaf™

# FRESHBOX

## Unmatched Insulation

Maintains optimal temperature and humidity levels for unmatched insulation, preserving flower flavor.

## Lightweight and Portable

Lightweight and portable, ideal for travel.

## Enhanced Durability

Impact-resistant EPP offers enhanced durability and exceptional protection during transport.

## Moisture-Resistant Design

Regulates moisture to prevent flower warping with a moisture-resistant design.

## Ready to Use

Ready for immediate use, no seasoning or preparation required.

## Versatile and Customizable

Stackable design with included divider for versatile and customizable organization.

## Consistent Temperature Stability

Provides remarkable thermal stability, preserving the flower aging process with consistent temperature.

## Effortless Maintenance

Easy to clean with mild soap and water, no need for delicate procedures.

## Odor-Free Storage

Effortless maintenance with odor-free storage that does not affect flower flavor.

## Preservation of Aging Process

Features odorless Expanded Polypropylene (EPP) construction for natural flower aging without external influences.

## EPP BOX

Freshness lock, durable protection, minimalist design, eco-friendly.
